Dear Participants!

ISHA Budapest is more than happy to welcome you to the 2019 Annual Conference, and to our beautiful Budapest for the first time after the New Year Seminar of 2017.

With the events behind us in the past year, we can say that with the topic „Recycle History” it will be a seminar which relates more with our present-days and deals with the questions of today’s political- and public debates probably more than most of the seminars in the history of ISHA.

Besides investigating the past and reflecting to the present, we are also here to get to know each other, not just in academic ways, but to make friendships and relations, to become a community. We also hope that you will enjoy Budapest, and get familiar with the atmosphere and culture of the city, and also a bit of Hungary as well, during the free time activities and cultural events.

I also want to say many thanks for the support of the two universities; the Central-European University, the Faculty of Humanities (BTK) of University Loránd Eötvös (ELTE), also to the Hungarian National Museum and to the HNM - Semmelweis Museum, Library and Archives of the History of Medicine and also thanks to all ISHA Budapest Alumni and special thanks to Bálint Bak for his support.

On behalf of all members of ISHA Budapest, I wish you a pleasant and memorable week.

Edina Husi
President
ISHA Budapest
Dear ISHA colleagues and friends,
we are very happy to welcome you all to ISHA Budapest’s Annual Conference, “Recycle History” in Budapest, Hungary.

International Students of History Association has been established 30 years ago to help the dialogue between young historians in the uniting Europe and beyond and to facilitate thinking about our shared past. Thanks to hundreds, thousands of committed active members, ISHA developed into an important non-governmental association, offering a vivid and exciting space of intellectual exchange and friendship.

The past decades however – especially the last years – showed us that we cannot talk about an “end of history” in any sense of the term. It seems that in our changing societies there is a growing need for valid interpretations of history (histories). Recent political and cultural trends have been challenging the academic and pedagogical subject history, the role of the historian and history teacher. New approaches, scientific subjects appeared, which are both challenging and revitalising historiography. The idea behind our anniversary seminar is to have a selection of these new paradigms, “turns” which are questioning traditional approaches, but at the same time giving the opportunity to renew, “recycle” history.

Concerning our 30-years ISHA-family: our deep conviction is that there is maybe more need for dialogue, free discussion and academic solidarity than ever. We wish that ISHA keeps promoting these values, as it did in the last decades.
We wish you fruitful discussions and a really memorable week here, with us!

With love,
The Organising Team

Here are some information about the Hostel and how to get there

1.) Liszt Ferenc Airport to Hostel:
You can take bus 100E (900 Ft/ticket) at the Airport and get off at Kálvin square station. After you get off the bus, you have to walk a few minutes.
Or You can take bus 100 (without E - you don't need to pay for a supplementary ticket, you can use it with your pass or with a regular ticket), then metro line 3 (M3) at Kőbánya-Kispest metro station, and get off at the Kálvin square.
Please notice that there are metro replacement buses in the line of M3 from Kőbánya-Kispest to Nagyvárad tér. In case you want to change between a metro replacement bus and metro line 3, you do not have to buy a new ticket; however, you have to validate the other end of the ticket upon entering the metro or getting on the bus.

2.) Kelenföld Bus station to the Hostel:
You can use metro line 4 (M4). Hop on at Kelenföld metro station and get off the metro at Kálvin square, then walk a few minutes to the hostel.

3.) Népliget Bus Station to the Hostel:
This is a bit complicated, because you have to use metro line 3 (M3), and at the moment this metro line is under renewal.
You can use the replacement bus or walk one station to Nagyvárad square. You have to take metro line 3 at Nagyvárad square and get off at Kálvin square metro station, then you have to walk few minutes to the hostel.

For easier travel, use google maps or the BKK futár app:
Szentendre is a small town close to Budapest. It is famous for its unique, colourful buildings, galleries and museums. It is located on the riverside of the Danube, so if you are a lover of cobble stone streets, romantic riverbanks, little slopes and old churches, this is definitely your town!

On Saturday, we will meet at 8:45 in front of the hostel. We will take M2 to Batthyány tér. After buying tickets for you, you can experience a traditional HÉV-journey with us through the outskirts of Budapest. We will arrive at Szentendre at about 10:30.

After the Great Turkish War many Serbs immigrated to Hungary. This minority left its handmark on the urban landscape of Szentendre, as you’ll see it. We will visit their new museum (Szerb museum) before lunch. Lunch will be at the canteen of Franciscan High School of Szentendre (Áprily Lajos tér 2.) at 13:00. After food, you’ll have free time to explore the town. You can either go to several museums of Hungarian fine arts or have some time to relax on the riverbank or on the hills (or both if you manage your time successfully).

Our meeting point will be in front of the HÉV Station at 17:00.
Public Transport

The Budapest Transport Privately Held Corporation (BKV) owned by the Municipality of Budapest runs most of the vehicles (bus, tram, metro and trolleybus) of the extensive network of public transportation in Budapest.

Monthly Budapest-pass for students (for university students: 3450 HUF/11€

Available with any starting day. Valid from 00:00 midnight on the indicated day (but from the time of purchase at the earliest) until 02:00 of the same day of the following month within the administrative boundaries of Budapest. You have to provide the education ID or ID number at the time of purchase as it will be printed onto the slip. The pass is non-transferable. If the pass gets damaged or the ID number has changed, the pass will be exchanged for the same type of pass with the same validity in return for a handling fee at the designated locations. Please present and hand your pass over if requested by the inspector. The removal of the section with the barcode and pass number is strictly prohibited. The company cannot replace the lost passes.

Violation of travel terms, penalty fares
A penalty fare of HUF 16,000 must be paid within 30 days after the issuance of the penalty by customers who
attempt to travel without a ticket or with an invalid ticket (not validated with a validating machine; expired validity; multiple validation), pass or travel ID, is not in possession of a valid travel document or attempt to use a travel discount to which they are not entitled or cannot verify their entitlement to a discount
attempt to travel with a pass ID or student ID whose number (or the education ID number if the student wishes to use that number), is not indicated at all or not indicated as per the regulation on the pass; or the pass ID or student ID is not filled out or is not properly validated, or the departure and destination stations are not stamped on it
If you pay the penalty fare in cash on the spot, the amount decreases from HUF 16,000 to HUF 8,000. The ticket inspector must provide you with a receipt for the on-the-spot payment in all cases.

Please, keep in mind that it is strictly forbidden to drink alcohol on the public transport vehicles. The same rules apply for eating ice-cream. :)

Ticket Vending Machines:

As we said during the application procedure, you will be kindly asked to buy your transport ticket on your own expenses, upon your arrival to Budapest. If you arrive to the Liszt Ferenc airport, you should find an information desk (with the name of the Budapest traffic company: BKK), when you are entering the arrival hall, where you can purchase the student pass personally. If you arrive by bus or train to the stations, you can find ticket vending machines (usually situated close to the metro’s entrance or right at the tram or bus stops). Here, you have to type your student ID’s number right into the machine, when you are getting your pass. We recommend you that to pay by card, because the machines are not always functioning properly and you might face with difficulties to get back your change.

NEVER use the public transport without your ticket or pass, and if you have a student pass, always bring your student card with you. Violation fines are 30 euros if you pay on the spot, but 60 euros if you pay later.
Currencies
The exchange rate between Euro and Hungarian Forint is in a flux, but at the moment, an average rate of EUR 1 = HUF 326 can be expected. Some major stores accept Euros (at a somewhat lower rate) but you can find money exchange booths all around the city.

Smoking and Drinking Alcohol in Public
There is a list of strict laws applying to these activities. In general, most districts do not allow you to drink in the streets. The inner city is somewhat easier on that, being the main party area of Budapest. However, in general you should not drink in public and definitely not in front of stores. Some shops will not sell you alcoholic beverages after 22:00. In district VIII. (where the hostel is located) it is strictly prohibited to drink alcohol or be loud in the streets after 10:00 p.m.

Smoking options are also limited. You are not allowed to smoke in the direct vicinity of public buildings and public transportation stops and stations, except for designated areas. Smoking is also prohibited in pubs. Tobacco products can only be purchased in shops with a brown round sign with the Hungarian tricolour and a “T” in the middle of it and saying “Nemzeti Dohánybolt”.
Emergency Calls
In case of an emergency, call 112, the universal distress line for all emergency units.
If that fails for any reason, try:
107: Police
105: Fire Department
104: Ambulance
